DETAILED ACTION

Reasons for Allowance

Claims 1-12, 24 & 37-98 are allowed.

The following is an examiner's statement of reasons for allowance:

The claims as currently amended are allowed because no references, or reasonable combination thereof could be found, which disclose, suggest or teach, the recited features of independent claims 1, 37, 47, 48 & 88. The prior art fails to disclose or teach, a gaming device wherein player selects plurality of different inputs, the inputs corresponding to a designated wager, for the single play of the primary game; receiving, by means of player input, plurality of different wager amount, the received wager amount corresponding to the designated wager level; and in response to the wager level, determining an interface from a plurality of different interfaces, each different interface being associated with a different symbols, however each interface having the same payout rate, as required by the independent claims 1, 37, 47, 48 & 88.

The combination of Dickinson (US Patent 6,287,197) and Tiberio (US Patent 5,123,649) teaches having dynamic pay schedule in a coin operated game, with plurality of different player selectable symbols, wherein the player achieves points for obtaining a high score by matching symbols. However, the combination of Dickinson and Tiberio fails to teach each and every recited feature of independent claims 1, 22, 45 & 54.
